Offers Paperless Environment

Wide Area Work Flow

What's Industry Reaction To WAWF?

Boeing

"This collaborative environment helps accelerate the payment process, eliminates manual data entry, reduces DD 250 errors and improves the contract reconciliation process for purposes of contract closeout."

Lockheed Martin

"EDI submissions to WAWF from our SAP application achieved a 2-day improvement over the paper process cycle. Instant visibility of rejected invoices saved 1-2 weeks in the re-submittal process."

Rockwell Collins

"This is an exciting new initiative for Rockwell Collins, DCMA, and the WAWF team resulting in a paperless process that reduces assets, provides strong benefits to the business cash flow, speeds shipments, reduces processing times, and improves quality of the DD250 submissions."
